

Important Information

The fund invests primarily in Chinese equities and fixed income securities.

1. The fund is exposed to general investment risk. Investors may be subject to loss and there is no guarantee of the repayment of principal.
 2. The fund is subject to risk relating to asset allocation strategy where there is no assurance that such strategy will be successful. Periodic rebalancing of fund investment may incur greater transaction costs.
 3. The fund's investment in equity securities would subject to equity investment risk.
 4. The fund's investment in fixed income securities may be subject to credit and counterparty, credit rating risk, etc. The fund's investment in below investment grade and/or unrated debt securities may be subject to higher degree of the above risks.
 5. The fund is exposed to China market risk which may be subject to change in political, social and economic policy risk, legal and regulatory risk, and mainland China taxation consideration etc.
 6. The fund may invest in derivatives for hedging purposes. In adverse situations, the fund's use of derivatives may become ineffective in hedging and the fund may suffer significant losses. Risks associated with derivatives include counterparty risk, credit risk and liquidity risk. Such exposure may lead to a high risk of capital loss.
 7. For distribution share classes/units, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the fund. Distributions maybe paid out of the capital of the fund at the Manager's discretion. This amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the net asset value per share or decrease in the value of units of the relevant Distribution Units.
- You should not make any investment decision solely based on this document. Please read the relevant offering document carefully for further fund details including risk factors.

Investment Objectives

The fund's objective is to provide income and capital growth by investing primarily in Chinese equity and fixed income securities.

Risk statistics & financial ratios

	Fund
Annual volatility (%) (3y)	12.5
Sharpe ratio (3y)	0.1

Source: Morningstar. The above ratios are based on NAV to NAV price based performance data.

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated NAV to NAV (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.
