Schroder International Selection Fund Global Multi-Asset Income

A Accumulation USD | Data as at 31.05.2025

Important Information

The fund invests primarily in a diversified range of assets and markets worldwide.

- The fund is exposed to general investment risk. Investors may be subject to loss and there is no guarantee of the repayment of principal.
 - The fund invests in equity securities which would subject to equity investment risk.
 - The fund invests in debt securities which may be subject to interest rate, credit and counterparty risks and risk relating to below investment grade and unrated debt securities, etc.
 - Investment in sovereign debt obligations may expose the fund to political, social and economic risks. The fund may suffer significant losses upon defaults by government entities.
 - The fund may invest in emerging and less developed markets, which may be subject to greater risks, including ownership and custody risks, political and economic risks, market and settlement risks, etc.
 - For distribution share classes/units, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the fund. Distributions may be paid out of the capital of the fund at the Manager's discretion. This amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the net asset value per share or decrease in the value of units of the relevant Distribution Units.
 - The fund may use derivatives to meet its investment. Derivatives exposure may involve higher credit risk and counterparty risk, liquidity risk and valuation risk. In adverse situations, the fund may suffer significant losses from their derivative usage for hedging.
- You should not make any investment decision solely based on this document. Please read the relevant offering document carefully for further fund details including risk factors.

Investment Objectives

The Fund aims to deliver income and capital growth by investing in a diversified range of assets and markets worldwide.

Schroder International Selection Fund Global Multi-Asset Income

A Accumulation USD | Data as at 31.05.2025

Return of USD 10,000

Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

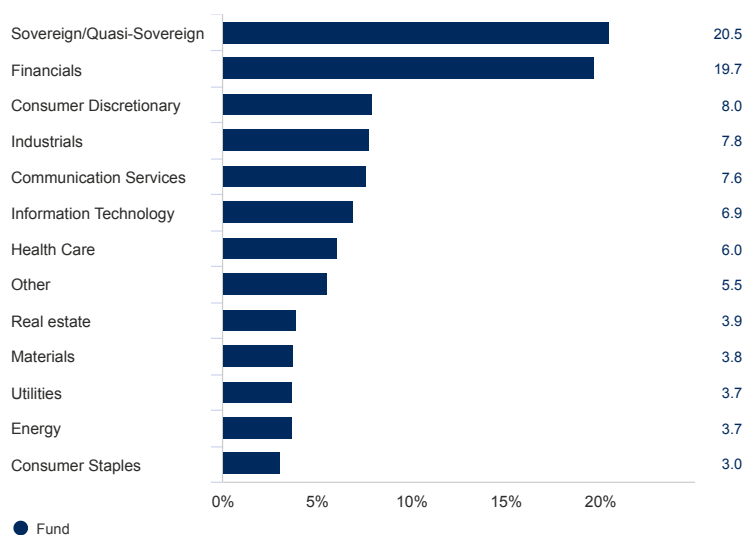

Returns are calculated NAV to NAV (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

Benchmark and corporate action information

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR).

Effective 29.10.2021, the investment objective has been changed from "The Fund aims to provide an income distribution of 5% per annum and capital growth over a three to five year period after fees have been deducted by investing in a diversified range of assets and markets worldwide. The Fund aims to provide a volatility (a measure of how much the Fund's returns may vary over a year) of between 5-7% per annum." to "The Fund aims to deliver an income of 3-5% per annum and capital growth over a three to five year period after fees have been deducted by investing in a diversified range of assets and markets worldwide.". Effective 08.05.2024, the investment objective has been changed from "The Fund aims to deliver an income of 3-5% per annum and capital growth over a three to five year period after fees have been deducted, by investing in a diversified range of assets and markets worldwide." to "The Fund aims to deliver income and capital growth by investing in a diversified range of assets and markets worldwide.". Effective 29.10.2021, the target benchmark has been changed from "being to provide income of 5% per year and capital growth and the volatility target of 5%-7% per year" to "the Fund's performance should be assessed against the income target of 3-5% per year". And the new comparator benchmarks, the 30% MSCI AC World Index (USD), 40% Barclays Global Aggregate Corporate Bond Index (USD) and 30% Barclays Global High Yield excl CMBS & EMG 2% index (USD) have been added. Effective 08.05.2024, the Fund's income target of 3 - 5% per annum will be removed and the Fund's performance will no longer be assessed against such income target. The existing comparator benchmark, i.e. 30% MSCI AC World Index (USD), 40% Barclays Global Aggregate Corporate Bond Index (USD) and 30% Barclays Global High Yield excl CMBS & EMG 2% index (USD), which is used for volatility and sustainability purposes will also be used as a performance comparator.

Benchmarks: (If applicable)

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The fund is not managed with reference to a benchmark. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy.
