

# Schroders Schroder International Selection Fund Multi-Asset Growth and Income

A Accumulation USD | Data as at 31.05.2025

## Important Information

The fund invests primarily in equity and equity related securities, fixed income securities and alternative asset classes.

- The fund is exposed to general investment risk. Investors may be subject to loss and there is no guarantee of the repayment of principal.
  - The fund's investment in equity securities is subject to equity investment risk.
  - The fund invests in debt securities which may be subject to interest rate, credit and counterparty risks and risk relating to below investment grade and unrated debt securities, etc.
  - Investment in sovereign debt obligations may expose the fund to political, social and economic risks. The fund may suffer significant losses upon defaults by government entities.
  - The fund invests in the emerging and less developed markets and may be subject to political and economic risks, legal and regulatory risks, liquidity and volatility risks, etc.
  - The fund may use derivatives to meet its investment objective. Derivatives exposure may involve higher credit risk and counterparty risk, liquidity risk and valuation risk. In adverse situations, the fund may suffer significant losses from their derivative usage for hedging.
  - For distribution share classes/units, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the fund. Distributions may be paid out of the capital of the fund at the Manager's discretion. This amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the net asset value per share or decrease in the value of units of the relevant Distribution Units.
- You should not make any investment decision solely based on this document. Please read the relevant offering document carefully for further fund details including risk factors.

## Investment Objectives

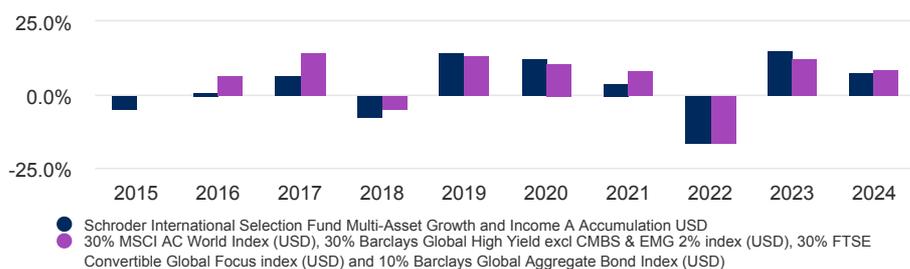

The Fund aims to provide capital growth and income over a three to five year period after fees have been deducted by investing in a diversified range of assets and markets worldwide.

## Share class performance (Cumulative)

## Return of USD 10,000

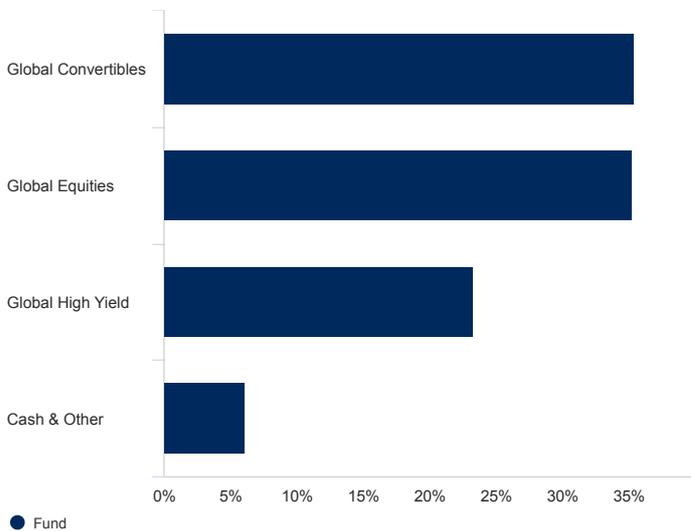

**Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.**

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

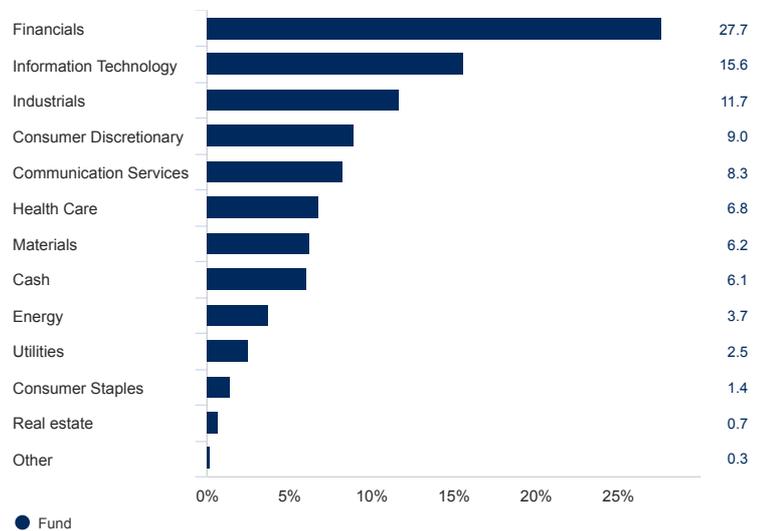

Returns are calculated NAV to NAV (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

## Benchmark and corporate action information

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR).

Effective 29.10.2021, the investment objective has been changed from "The Fund aims to provide capital growth and income over a three to five year period after fees have been deducted by investing in a diversified range of assets and markets worldwide. The Fund aims to provide a volatility (a measure of how much the Fund's returns vary over a year) of 6-12% per annum." to "The Fund aims to provide capital growth and income over a three to five year period after fees have been deducted by investing in a diversified range of assets and markets worldwide.". On 06/07/2018, the Fund previously named Schroder ISF Global Multi-Asset Flexible, changed its name to Schroder ISF Multi-Asset Growth and Income. Schroder ISF Balanced Portfolio was launched in July 2012 to accommodate a transfer of shareholders from the Strategic Solutions funds to the Schroder ISF SICAV. Effective 29.10.2021, the target benchmark (being to provide capital growth and income and the volatility target of 6% - 12% per year) has been removed and the new comparator benchmarks, the 25% MSCI AC World Index (USD), 25% Barclays Global High Yield excl CMBS & EMG 2% index (USD), 12.5% Thomson Reuters Convertible Global Focus index (USD) and 37.5% Barclays Global Aggregate Bond Index (USD) have been added. Effective 07.07.2023, the comparator benchmark weightings have been updated to 30% MSCI AC World Index (USD), 30% Barclays Global High Yield excl CMBS & EMG 2% index (USD), 30% Thomson Reuters Convertible Global Focus index (USD) and 10% Barclays Global Aggregate Bond Index (USD). On 03.02.2014, the Fund, previously named Schroder ISF Balanced Portfolio, changed its name to Schroder ISF Global Multi-Asset Allocation. On 01.06.2016, the Fund, previously named Schroder ISF Global Multi-Asset Allocation, changed its name to Schroder ISF Global Multi-Asset Flexible. Prior to 02.07.2012 the fund uses the track record of the Strategic Solutions - Balanced Portfolio (launched on 08.12.2003) as a performance track record.

### Benchmarks: (If applicable)

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The fund is not managed with reference to a benchmark. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy.
