Source: Morningstar, bid to bid, net income reinvested, net of fees. **Past performance and any forecasts are not necessarily a guide to the future or likely performance. The value of investments and income from them can go down as well as up and is not guaranteed.** This share class was inceptioned on (21.05.2025). As it was inceptioned less than a year ago, since inception performance figures are therefore cumulative and not annualized. The distributions are not guaranteed. Ordinarily, they will be reviewed annually. In the event of the Fund's income and realised gains being less than indicated distribution amount per unit per annum, distributions will be made from capital. Investors should be aware that the distributions may exceed the income and realised gains of the Fund at times and lead to a reduction of the amount originally invested, depending on the date of initial investment. Some performance differences between the fund and the benchmark may arise as the benchmark returns are not adjusted for non-dealing days of the fund. Where 'since inception' performance figures are stated, please note that the inception date is the same as the share class launch date under 'Fund Facts'.
