

L Accumulation GBP | Data as at 31.07.2026

Fund objectives and investment policy

The fund aims to provide income and capital growth of between 2.5% and 4.5% per annum (after fees have been deducted) over a 3 to 5 year period by investing in bonds issued by governments, government agencies, supranationals and companies worldwide. This cannot be guaranteed and your capital is at risk.

Above is the Investment Objective of the fund. For details on the full fund's Investment Policy please see the KIID.

Relevant risks associated with an investment in this fund are shown below and should be carefully considered before making any investment. Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of investments to fall as well as rise. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.

L Accumulation GBP | Data as at 31.07.2026

10 year return of GBP 10,000

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated bid to bid (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

Risk considerations

ABS and MBS risk: The fund may invest in mortgage or asset-backed securities. The underlying borrowers of these securities may not be able to pay back the full amount that they owe, which may result in losses to the fund.

Contingent convertible bonds: The fund may invest in contingent convertible bonds which are bonds that convert to shares if the bond issuer's financial health deteriorates. A reduction in the financial strength of the issuer may result in losses to the fund.

Counterparty risk: The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

Credit risk: If a borrower of debt provided by the fund or a bond issuer experiences a decline in financial health, their ability to make payments of interest and principal may be affected, which may cause a decline in the value of the fund.

Currency risk: If the fund's investments are denominated in currencies different to the fund's base currency, the fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates. If the investor holds a share class in a different currency to the base currency of the fund, investors may be exposed to losses as a result of movements in currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

High yield bond risk: High yield bonds (normally lower rated or unrated) generally carry greater market, credit and liquidity risk meaning greater uncertainty of returns.

Interest rate risk: The fund may lose value as a direct result of interest rate changes.

Liquidity risk: The fund invests in illiquid instruments, which are harder to sell. Illiquidity increases the risks that the fund will be unable to sell its holdings in a timely manner in order to meet its financial obligations at a given point in time. It may also mean that there could be delays in investing committed capital into the asset class.

Market risk: The value of investments can go up and down and an investor may not get back the amount initially invested.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Capital Erosion: As a result of fees being charged to capital, the distributable income of the fund may be higher, but there is the potential that performance or capital value may be eroded.

Synthetic risk & reward indicator (SRI)

LOWER RISK

Potentially lower reward

HIGHER RISK

Potentially higher reward

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile. The fund's risk category is not guaranteed to remain fixed. Please see the Key Investor Information Document for more information.

Risk statistics & financial ratios

	Fund	Comparator 1
Annual volatility (%) (3y)	4.0	4.9
Effective duration (years)	4.5	-
Current yield (%)	6.4	-
Yield to maturity (%)	7.3	-

Information relating to changes in fund manager, investment objective, benchmark and corporate action information

Manager Changes

On 01.07.2025 Martin Coucke & Julien Houdain (co-managers) replaced Daniel Pearson, Martin Coucke & Julien Houdainas fund managers

On 13.06.2025, the fund's investment policy was changed. **Manager Changes**

On 01.07.2025 Martin Coucke & Julien Houdain (co-managers) replaced Daniel Pearson, Martin Coucke & Julien Houdainas fund managers

Benchmarks: (If applicable)

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The fund is not managed with reference to a benchmark. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy.

Important information

Costs:

Certain costs associated with your investment in the fund may be incurred in a different currency to that of your investment. These costs may increase or decrease as a result of currency and exchange rate fluctuations.

If a performance fee is applicable to this fund, details of the performance fee model and its computation methodology can be found in the fund's prospectus. This includes a description of the performance fee calculation methodology, the dates on which the performance fee is paid and details of how the performance fee is calculated in relation to the fund's performance fee benchmark, which may differ from the benchmark in the fund's investment objective or investment policy.

For further information regarding the costs and charges associated with your investment, please consult the funds' offering documents and annual report.

General:

For help in understanding any terms used, please visit address <https://www.schroders.com/en-gb/uk/individual/glossary/>. The fund is an authorised unit trust. Subscriptions for fund units can only be made on the basis of its latest Key Investor Information Document, Supplementary Information Document and Prospectus, together with the latest audited annual report (and subsequent unaudited semi-annual report, if published), copies are available in English and can be obtained, free of charge, from Schroder Unit Trusts Limited. These can be requested via our website at www.schroders.co.uk, or by calling the Investor Services Team on 0800 182 2399 requesting a printed version.
