Directors' Report

The Company

Schroder GAIA (the 'Company') is an umbrella structured open-ended investment company with limited liability, organised as a 'société anonyme' and qualifies as a SICAV under Part I of the Law of 17 December 2010 as amended. The Company was incorporated on 21 October 2009 and its Articles were published in the Memorial on 12 November 2009 as amended.

Schroders is a FATCA compliant organisation. The FATCA classification of this entity and its GIIN is as follows: FATCA entity classification: FFI; Sponsoring entity: Schroder Investment Management (Europe) S.A. (the 'Management Company'); Sponsoring entity GIIN: 4RIMT7.00000.SP.442.

Financial Statements

The Board of Directors (the 'Directors') of the Company submit their report and the audited financial statements for the year ended 30 September 2025.

At the date of this report, there were 11 Sub-Funds available for investment within the Company (the 'Sub-Funds'). Please refer to the current prospectus for the investment objectives of the Sub-Funds as well as details of investment restrictions. The Investment Manager's report for each Sub-Fund can be found in the quarterly investment reports, which can be obtained from the Company's registered office and are also available on the website of the Management Company (<http://www.schroders.com>).

This report covers the year from 1 October 2024 to 30 September 2025. The last day on which prices were calculated was 30 September 2025, the last working day of the year under review. The financial statements are prepared in accordance with Luxembourg regulations relating to undertakings for collective investment (UCI).

On 30 September 2025, the total net assets of the Company were EUR 5,978,372,136 compared to EUR 5,760,793,489 on 30 September 2024, representing an increase of 3.78%.

Directors' Responsibilities

The responsibility of the Board is governed by Luxembourg law. With respect to the financial statements of the Company, the Board of Directors are required to prepare financial statements for each financial year which give a true and fair view of the assets, liabilities and financial position of the Company and each of its Sub-Funds as at the financial year end and of the profit or loss of the Company and each of its Sub-Funds for the financial year.

The Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether they have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Sub-Funds will continue in business.

The Directors are responsible for ensuring the maintenance of adequate accounting records. In this regard, they have entrusted the assets of the Sub-Funds to Brown Brothers Harriman (Luxembourg) S.C.A. (the 'Depositary') for safe-keeping. The Directors have responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities.

Board Meetings

During the year ended 30 September 2025, there were 6 board meetings held.

Corporate Governance

The Company is subject to corporate governance based on:

1. Its obligations as defined by the UCITS Directive 2009/65/EC dated 13 July 2009, as implemented in Luxembourg law, which is available for inspection at the registered office of the Company at 5, rue Höhenhof, L-1736 Senningerberg, Grand Duchy of Luxembourg.
2. Its Articles of Incorporation which are available for inspection at the registered office of the Company and at the Luxembourg corporate and trade register, Registre de Commerce et des Sociétés ('RCSL').
3. The obligations in respect of the management of the Company, for which the Company has appointed Schroder Investment Management (Europe) S.A., which is subject to the requirements of the Management Company Directive 2010/43/EC, as implemented in Luxembourg law.
4. The Association of the Luxembourg Fund Industry ('ALFI') Code of Conduct for Luxembourg Investment Funds, the principles of which the Company has voluntarily adopted.

Internal Control and Risk Management Systems

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has contracted with the Management Company to put procedures in place to ensure all relevant accounting records are properly maintained and are readily available including the production of annual and semi-annual reports. The annual and semi-annual reports of the Company are required to be approved by the Board of Directors and filed with the Commission de Surveillance du Secteur Financier ('CSSF') and, in the case of annual reports, with the RCSL. The annual statutory financial statements are required to be audited by independent auditors who report to the Board of Directors on their findings.

The Board meets at least four times a year and ensures that the Company maintains high standards of integrity and control in its operations and that it possesses adequate governance and means of control as law and regulation demand.

Sustainable Finance Disclosure Regulation

Information about the environmental or social characteristics and sustainable investment objective, as applicable, is available in Appendix III - Sustainable Finance Disclosure (Unaudited).

Investment Manager's Report

The Sub-Funds in the Schroder GAIA range can take advantage of positive or adverse market conditions through long or short exposures. This approach can sometimes result in quite diverse performance in the short term relative to the markets in which the Sub-Funds invest.

Economic review

The 12-month period was dominated by the election of Donald Trump as US President in November 2024 and subsequent uncertainty over economic policy. In particular, US trade tariffs were a key focus of the year, with fears that an escalation in trade disputes could trigger a sharp global economic downturn. However, while newsflow on tariffs caused occasional volatility in financial markets, this was ultimately contained.

On the domestic front, President Trump unveiled a fiscal programme which was passed by the House of Representatives in June. The legislation extends tax cuts implemented in 2017, increases defence spending, and cuts spending on welfare programmes such as Medicaid.

US economic indicators generally remained resilient. GDP contracted during the first quarter by 0.5%, which was largely attributable to higher imports as both businesses and consumers stockpiled goods in anticipation of price hikes stemming from trade tariffs. There was some softness in labour market data towards the end of the period, which resulted in the Fed cutting interest rates in September 2025 and signalling further reductions to come.

In the eurozone, elections in Germany brought optimism that the new administration led by the Christian Democrats would pursue a pro-growth agenda. However, France experienced political turmoil with successive prime ministers being unable to push their fiscal programmes through parliament.

In the UK, spending cuts in the Chancellor's Spring Statement highlighted concerns around the economic outlook. While the Office for Budget Responsibility concluded the UK fiscal outlook remained stable, it cautioned that higher defence spending and global trade uncertainty may necessitate further tax hikes in the autumn.

In emerging markets, stimulus measures in China including interest rate cuts, support for the troubled property sector, and liquidity injections, helped to stabilise the economy. Advances in artificial intelligence (AI) by Chinese companies have also led investors to reevaluate China as a leader in the technology sector.

Equity market review

Global equities delivered strong returns over the 12-month period. Developed market equities, as measured by the MSCI World index, returned 17.2% (source: DataStream, in US dollars). Expectations of interest rate cuts and positive earnings momentum underpinned global equities, despite pronounced volatility at times.

In late 2024, US shares advanced following Donald Trump's victory in the Presidential election, but other developed markets came under pressure amid concerns over potential US trade tariffs.

During the opening quarter of 2025, US shares weakened with technology stocks posting steep declines. This change in market leadership came in the wake of news that China's DeepSeek had developed an artificial intelligence (AI) model comparable to the US market leaders, but at a fraction of the cost. This caused investors to reassess expectations around AI, US leadership in the field, and returns on investment. However, as 2025 progressed, enthusiasm around the prospects for AI - and the US AI leaders - returned and powered markets higher once more.

European shares also performed well, particularly in early 2025. Germany announced substantial spending plans, raising optimism that the new government would pursue a pro-growth agenda to boost the manufacturing and industrials sectors.

Tariffs were a key theme of the period. In early April, the announcement of "Liberation Day" tariffs by President Trump sparked significant volatility in equity markets. However, the temporary suspension of most tariffs until August while trade talks took place steadied global shares, which subsequently advanced on strong corporate earnings, moderating inflation and the prospect of lower interest rates.

Emerging markets (EM) performed largely in line with their developed counterparts for the period as a whole. The MSCI EM index returned 17.6% (source: DataStream, in US dollars). Emerging markets were supported by China's announcement of new stimulus measures as well as the "anti-involution" policy (a drive to eliminate damaging price competition in key industries like electric vehicles). Investor optimism around the AI theme also helped to lift some EM, notably Taiwan and Korea.

Fixed income market review

Yields rose across the major government bond markets over the last 12 months. Softer inflation data boosted market expectations of interest rate cuts, particularly in the US, although the November elections were the catalyst for a sell-off. As the period ended, President Trump unveiled broad-based trade tariffs and concerns over the sustainability of fiscal deficits grew.

The 10-year US Treasury yield rose from 3.79% to 4.15%. Weaker labour market data prompted the Federal Reserve (Fed) to sanction an additional interest rate cut in November although Fed officials issued more cautious guidance for 2025. Subsequently, the Trump administration's trade tariffs fuelled concerns about higher inflation, while proposed tax changes were viewed as worsening the budget deficit.

Germany's 10-year bond yield rose from 2.13% to 2.71%. Although the ECB sanctioned a succession of interest rate cuts, the German parliament approved plans from the new Chancellor to substantially raise borrowing limits, funding defence and infrastructure expenditure.

Despite the Bank of England reducing interest rates by 0.25% on four occasions, the 10-year UK gilt yield rose from 4.01% to 4.70% as the new Labour government announced a £28bn annual increase in borrowing in the autumn budget.

Japanese government bond yields rose sharply as the Bank of Japan abandoned its negative interest rate policy and raised borrowing costs to 0.50% early in 2025. The 10-year government bond yield climbed from 0.86% to 1.65%.

Credit spreads tightened as lower interest rates boosted demand for corporate bonds. However, proposed US trade tariffs announced in April triggered a sell-off before spreads resumed their narrowing trend.

The US dollar index rallied in the run up to the November elections and in the immediate aftermath. Since the turn of the year, the dollar has been markedly weak with investors preoccupied by the impact of trade tariffs on the US economy.

Investment Manager's Report (cont)

Outlook

The Schroders Economics Team remains optimistic about the outlook for global growth as looser financial conditions drive a cyclical pick-up in activity. That said, in the US, the Federal Reserve's (Fed) decision to press ahead with interest rate cuts at a time when the solid real economy is close to full employment raises the risk of higher inflation becoming ingrained. Structural constraints – especially a shrinking labour supply – mean the economy's potential growth rate is falling. That raises the odds of a tighter labour market, faster wage growth, and stickier inflation. Globally though, stronger US demand should be a tailwind.

In the eurozone, looser financial conditions continue to filter through, supporting consumption and investment. The EU-US trade deal lifted the cloud of uncertainty that had weighed on corporate borrowing and investment decisions. However, political risks in France will remain high. In the UK, structural supply-side issues mean that even modest rates of growth should be enough to keep inflation above 3% until mid-2026.

In emerging markets (EM), the most export-dependent EMs have struck trade deals with the US. Tariffs will generally rise from past levels, but the removal of trade uncertainty has been treated as a net positive for markets. Exporters must also contend with stronger currencies against the dollar. But appreciating currencies could ultimately be a positive for EM domestic growth in 2026 as stronger currencies will help to lower imported inflation. In China, the domestic economy is still some way from escaping the deflationary housing bust that began in 2021.

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Opinion

We have audited the financial statements of Schroder GAIA ("the Fund") and of each of its sub-funds, which comprise the Combined Statement of Net Assets and the Portfolio of Investments as at 30 September 2025, and the Combined Statement of Operations and the Combined Statement of Changes in Net Assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 30 September 2025, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and of each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements as at 30 September 2025

The Company

The Company is an open-ended investment company organised as a société anonyme under the laws of the Grand Duchy of Luxembourg and qualifies as a Société d'Investissement à Capital Variable ('SICAV'). The exclusive objective of the Company is to place the Sub-Funds available to it in transferable securities of any kind and other permitted assets, including financial derivative instruments, with the purpose of spreading investment risks and affording its Shareholders the results of the management of its portfolios.

The investment strategy of each Sub-Fund is based on an alternative investment strategy which has been designed and is currently managed by each of the Investment Managers.

Classes of Shares

The Share Classes available for each Sub-Fund are set out in the current prospectus, along with details of any minimum subscription, minimum additional subscription and minimum holding amounts and details of initial charges (where applicable) for each Share Class.

Shares are generally issued as Accumulation Shares. Distribution Shares will only be issued within any Sub-Fund at the Directors' discretion. Investors may enquire at the Management Company or their Distributor whether any Distribution Shares are available within each Share Class and Sub-Fund.

The Directors may decide to create within each Sub-Fund different Share Classes whose assets will be commonly invested pursuant to the specific investment policy of the relevant Sub-Fund, but where a specific fee structure, currency of denomination or other specific feature may apply to each Share Class. A separate Net Asset Value per Share, which may differ as a consequence of these variable factors, will be calculated for each Share Class.

E Share Class is not available through Schroders' global network of distributors. For any questions in this regard, please contact the Management Company.

Summary of Significant Accounting Policies

The financial statements are prepared and presented in accordance with generally accepted accounting principles in Luxembourg for investment funds on a going concern basis. Sub-Funds that have been liquidated or are intended to be liquidated after year end are prepared on a non-going concern basis. The application of the non-going concern basis of accounting has not led to material adjustments to the Sub-Funds' published net asset values.

Net Asset Value

Calculation of Net Asset Value per Share

The Net Asset Value per Share of each Share Class is calculated on the Calculation Day in the currency of the relevant Share Class. It will be calculated by dividing the Net Asset Value attributable to each Share Class, being the proportionate value of its assets less its liabilities, by the number of Shares of such Share Class then in issue. The resulting sum shall be rounded to the nearest, up to, four decimal places. Further details on rules that apply in valuing total assets can be found in the current prospectus.

The financial statements are prepared on the basis of the last NAV calculated during the year (30 September 2025 for all Sub-Funds) and presented in accordance with Luxembourg generally accepted accounting principles for investment funds.

Valuation of the Assets of the Company

The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof.

The value of securities, financial derivative instruments and assets is determined on the basis of the prices at the close of market on the Business Day, on the stock exchange or any other Regulated Market on which these securities or assets are traded or admitted for trading. If a security is not traded or admitted on any official stock exchange or any Regulated Market, or in the case of securities so traded or admitted the last available price of which does not reflect their true value, the Directors are required to proceed on the basis of their expected sales price, which shall be valued with prudence and in good faith.

The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company's initiative.

Should any of the aforesaid valuation principles not reflect the valuation method commonly used in specific markets or if any such valuation principles do not seem accurate for the purpose of determining the value of the Company's assets, the Directors may fix different valuation principles in good faith and in accordance with generally accepted valuation principles and procedures.

Units or Shares in open-ended UCIs shall be valued on the basis of their last available Net Asset Value as reported by such UCIs.

The total financial statements are expressed in EUR, the currency of the Company, and the financial statements of the Sub-Funds are expressed in the relevant base currency. The applicable exchange rates prevailing at the end of the year are used to translate currencies other than EUR into EUR for the Statement of Net Assets, Statement of Operations and Statement of Changes in Net Assets.

Swing Pricing

A Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a swing pricing mechanism may be adopted to protect the interests of the Shareholders of the Sub-Fund. If on any valuation day, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined and reviewed for each Sub-Fund on a periodic basis by the Management Company, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and outflows respectively.

The net flow will be determined by the Management Company based on the latest available information at the time of calculation of the Net Asset Value per Share. The extent of the price adjustment will be set by the Management Company to reflect dealing and other costs. Such adjustment may vary from Sub-Fund to Sub-Fund and in normal market conditions is not expected to exceed 2% of the unadjusted Net Asset Value per Share of the relevant Sub-Fund on any Dealing Day.

On 30 September 2025, the last Calculation Day of the year under review, swing pricing adjustments were applied to Schroder GAIA SEG US Equity. The official Net Asset Values per Share of this Sub-Fund following the application of the swing pricing adjustment on that date are shown in the following table. All other financial information stated in this report is shown before any adjustments for swing pricing. For further details regarding swing pricing adjustments during the period, please contact the Management Company. The mechanism has been implemented for Schroder GAIA Sub-Funds since their inception.

* The Net Asset Value per Share of each share class is stated in the currency of the share class.

Fair Value Pricing

The Directors reserve the right to implement fair value pricing whenever they deem it appropriate.

As at 30 September 2025, the fair value adjustment was applied to the following securities:

Sub-Fund	Security name
Schroder GAIA Cat Bond	Voussoir Re SideCar-Preference, July 2024
	Voussoir Re SideCar-Preference, January 2025
Schroder GAIA Helix	CFD on TRINITY LIMITED
	Noventiq Holdings
Schroder GAIA Wellington Pagosa	Credit Suisse Group perpetual, 7.50%

Taxation

The Company is not subject to any taxes in Luxembourg on income or capital gains.

The only tax to which the Company is subject is the 'taxe d'abonnement' at a rate of 0.05% per annum based on the Net Asset Value of each Sub-Fund at the end of the relevant quarter, calculated and paid quarterly.

In respect of any Share Class or Sub-Fund which comprises only institutional Investors (within the meaning of Article 174 of the Law of 17 December 2010 as amended), the tax levied will be at the rate of 0.01% per annum.

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin, and provisions in this respect may be recognised in certain jurisdictions.

Notes to the Financial Statements as at 30 September 2025 (cont)

Management Fees

The Investment Managers are entitled to receive management fees for their services, which are calculated and accrued daily by reference to the Net Asset Value of the Sub-Funds and are paid monthly. No management fees are payable out of the net assets for I share classes, however the Investors are charged directly by Schroders. The actual rates payable for the year under review are set out in the following table:

Sub-Funds	Share Class	Management Fee
Schroder GAIA Asian Equity Long Short	A Shares	2.00%
	C and IZ Shares	1.00%
	E Shares	0.75%
	X1 Shares	0.85%

These fees may be partially waived at the discretion of the Management Company.

* Management fee of Schroder GAIA Cat Bond Share Class X has changed to 0.70% on 1 February 2025.

** Management fee of Schroder GAIA Cat Bond Share Class Y has changed to 0.75% on 1 July 2025.

Notes to the Financial Statements as at 30 September 2025 (cont)

Performance Fees

A performance fee becomes due in the event of outperformance, that is if the increase in the Net Asset Value per Share during the relevant performance year exceeds the High Water Mark, i.e. by reference to the highest Net Asset Value per Share at the end of any previous performance year (the High Water Mark).

A Share Class performance fee is accrued on each Business Day and included in the Net Asset Values of the Sub-Funds on the following Calculation Day, on the basis of the difference between the Net Asset Value per Share determined on the same Calculation Day (before deduction of any provision for the performance fee) and the hurdle, multiplied by the average number of Shares in issue over the financial year or in the case of a performance fee based on outperformance over a benchmark the higher of the Target Net Asset Value per Share (i.e. the hypothetical Net Asset Value per Share assuming a performance based on the benchmark until the Business Day) or the High Water Mark, multiplied by the average number of Shares in issue over the financial year. No performance fee is calculated for I Shares.

The Sub-Funds in relation to which performance fees were calculated during the year under review as well as details of the relevant Investment Managers and benchmarks are set out in the table below. Further details of the calculation of performance fees can be found in the current prospectus and the fees payable for the year are shown in the Statement of Net Assets under 'Performance fees payable'. Performance fees charged per share class during the year are shown on pages 140-142.

Notes to the Financial Statements as at 30 September 2025 (cont)

Performance Fees (cont)

For Schroder GAIA Asian Equity Long Short, Schroder GAIA Contour Tech Equity, Schroder GAIA Egerton Equity, Schroder GAIA SEG US Equity and Schroder GAIA Two Sigma Diversified the performance fee is 20% of the outperformance.
For Schroder GAIA Helix, Schroder GAIA Sirios US Equity and Schroder GAIA Wellington Pagosa the performance fee is 20% of the outperformance (with the exception of E Shares where the rate is 15% of the outperformance).
For Schroder GAIA BlueTrend the performance fee is 10% of the outperformance.
For Schroder GAIA Cat Bond and Schroder GAIA Oaktree Credit no performance fee is charged (with the exception of Schroder GAIA Cat Bond PI Shares where the rate is 10% of the outperformance).

Distribution Fees

As at the date of this report, there is a distribution fee of 0.50% on all Schroder GAIA A1 Share Classes. There are no other distribution fees attributable to any other classes of Shares available for investment within the Company.

Custodian and Administration Fees

The Custodian and Fund Administrator are entitled to fees for related services rendered in accordance with common practice in Luxembourg, payable monthly, out of the net assets of the Sub-Fund.

Operating Expenses

The Sub-Funds pay other operating expenses incurred in the operation of the Company which are composed of statutory fees and are mainly audit, legal and publication fees, please refer to the 'Other Expenses' shown in the Statement of Operations.

Directors' Fees

Bernard Herman was remunerated EUR 24,500 for the year under review. Eric Bertrand was remunerated EUR 26,500 for the year under review. Hugh Mullan was remunerated EUR 22,000 for the year under review. Yves Francis was remunerated EUR 25,500 for the year under review. The remaining directors have waived their remuneration.

Cash Collateral Reinvestment

For the purpose of counterparty risk mitigation, Sub-Funds with currency hedging transactions related to hedged Share Classes will pay or receive cash collateral on a daily basis from the counterparty, thus reducing their exposure over the duration of the forward contract.

The Investment Managers may reinvest the cash collateral they receive from their counterparty in connection with currency hedging.

Collateral receivable or payable at the maturity date of the forward contracts are shown in the Statement of Net Assets as 'Net Hedged currency class forward contracts collateral receivable/payable'. Collateral calls receivable or payable are shown in the Statement of Net Assets as 'Hedged currency class forward contracts collateral calls receivable/payable'.

Forward Foreign Exchange Contracts

Outstanding forward foreign exchange contracts were valued at the last available price at NAV Calculation Day, by reference to the forward rate of exchange applicable to the maturity of the relevant contract. The unrealised appreciation/(depreciation) is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on forward foreign exchange contracts'.

On 30 September 2025, the following Sub-Funds were committed to forward foreign exchange contracts:

					USD	1,170,987	(475,214)

Total Return Swap Contracts

The Sub-Funds may use total return swaps. A total return swap is a bilateral financial contract which allows them to enjoy all of the cash flow benefits of an asset without actually owning this asset (the 'Reference Asset'). The Sub-Funds will have to pay a periodic fee (fixed or floating payment) in exchange of their rights to receive the total return of the Reference Assets (coupons and/or capital gains and/or losses). The Reference Asset can be almost any asset, which constitutes an eligible investment for the Sub-Funds. The Sub-Funds may use such instruments to seek exposure to an eligible market or for hedging purposes.

The total return swaps were valued at the last available price at NAV Calculation Day. The unrealised gain or loss on total return swaps at year-end is represented by the value of interest to be received (or paid), based on relevant swap agreements' interest rates less (or plus, respectively), the value of the performance to be paid (or received, respectively), based on the total return value of underlying assets, which is made up of the current fair value of equities plus the dividend distributed for such equities for the relevant swap year. The unrealised appreciation/(depreciation) is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on total return swap contracts'.

Notes to the Financial Statements as at 30 September 2025 (cont)

Total Return Swap Contracts (cont)

Contracts for Differences

Contracts for differences ('CFDs') are valued based on the closing market price of the underlying security converted into the base currency of the contract, less any financing charges attributable to each contract which are booked separately. On entering a contract for difference, the Sub-Funds may be required to pledge an amount of cash and/or other assets to the broker which is equal to a certain percentage of the contract amount ('initial margin'). Subsequently, payments known as 'variation margins' are made or received by the Sub-Funds periodically, depending on the fluctuations in the value of the underlying security. Realised gains or losses at the closure of the contract are equal to the difference between the value of the contract for difference at the time it was opened (including any financial changes) and the value at the time it was closed. Dividends (net of withholding taxes) attributable to open contracts are deemed to be dividends receivable at the end of the year. The result of these revaluations is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on contracts for differences'.

As at 30 September 2025, the following Sub-Funds were entered into contracts for differences on financial indices and futures contracts:

Contract	Counterparty	Quantity	Market Value	Unrealised Appreciation/ (Depreciation)

Notes to the Financial Statements as at 30 September 2025 (cont)

Credit Default Index Swap Contracts

A credit default index swap allows the transfer of default risk. This allows a Sub-Fund to effectively buy insurance on a reference index obligation it holds (hedging the investment), or buy protection on a reference index obligation it does not physically own in the expectation that the credit will decline in quality. One party, the protection buyer, makes a stream of payments to the seller of the protection, and a payment is due to the buyer if there is a credit event (a decline in credit quality, which will be predefined in the agreement between the parties). If the credit event does not occur the buyer pays all the required premiums and the swap terminates on maturity with no further payments. The risk of the buyer is therefore limited to the value of the premiums paid. In addition, if there is a credit event and the Sub-Fund does not hold the underlying reference obligation, there may be market risk as the Sub-Fund may need time to obtain the reference index obligation and deliver it to the counterparty. Furthermore, if the counterparty becomes insolvent, the Sub-Fund may not recover the full amount due to it from the counterparty. The market for credit default indices may sometimes be more illiquid than the bond markets. The Company will mitigate this risk by monitoring in an appropriate manner the use of this type of transaction.

Credit default indices were valued at their intrinsic value. The valuation method involves the current value of the interest-rate series and the current value of the credit spread traded on the market at the closing date. The result of these revaluations together with any interest receivable/payable in relation to credit default index is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on credit default index swap contracts'.

On 30 September 2025, the following Sub-Funds were committed to credit default index swap agreements on financial indices:

Protection Position	Description	Counterparty	Currency	Nominal Amount	Interest (Paid)/Received %	Maturity Date	Unrealised Appreciation/(Depreciation)
Schroder GAIA BlueTrend							
Sell	CDX iTraxx Europe Crossover Series 44 20/12/2030	J.P. Morgan	EUR	26,000,000	5.00	20-Dec-2030	3,268,840

Credit Default Swap Contracts

A credit default swap allows the transfer of default risk. This allows the Sub-Fund to effectively buy insurance on a reference obligation it holds (hedging the investment), or buy protection on a reference obligation it does not physically own in the expectation that the credit will decline in quality. One party, the protection buyer, makes a stream of payments to the seller of the protection, and a payment is due to the buyer if there is a credit event (a decline in credit quality, which will be predefined in the agreement between the parties). If the credit event does not occur the buyer pays all the required premiums and the swap terminates on maturity with no further payments. The risk of the buyer is therefore limited to the value of the premiums paid. In addition, if there is a credit event and the Sub-Fund does not hold the underlying reference obligation, there may be a market risk as the Sub-Fund may need time to obtain the reference obligation and deliver it to the counterparty. Furthermore, if the counterparty becomes insolvent, the Sub-Fund may not recover the full amount due to it from the counterparty. The market for credit default swaps may sometimes be more illiquid than the bond markets. The Company will mitigate this risk by monitoring in an appropriate manner the use of this type of transaction.

Credit default swaps were valued at their intrinsic value. The valuation method involves the current value of the interest-rate series and the current value of the credit spread traded on the market at the closing date. The result of these revaluations together with any interest receivable/payable in relation to credit default swaps is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on credit default swap contracts'.

On 30 September 2025, there were no Sub-Funds committed to credit default swap agreements.

Notes to the Financial Statements as at 30 September 2025 (cont)

Cross Currency Swap Contracts

The cross currency swaps were valued at the last available price at NAV Calculation Day. The unrealised appreciation/(depreciation) is disclosed in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation)' on cross currency swap contracts'. A cross currency swap is a contract by which two parties commit themselves during a given period to exchange interest payments denominated in two different currencies.

On 30 September 2025, the following Sub-Fund was entered into cross currency swap contracts:

Counterparty	Paying Currency	Nominal	Receiving Currency	Nominal	Maturity	Paying Rate	Receiving Rate	Unrealised Appreciation/(Depreciation)
Schroder GAIA Wellington Pagosa								
Bank of America	USD	10,390,511	CAD	14,980,000	18-Mar-2031	USD SOFR 1 day	CAD CORRA OIS 1 day	(20,790)
Bank of America	USD	9,588,645	SEK	100,792,000	18-Mar-2031	USD SOFR 1 day	SEK STIBOR 3 months	2,529
Morgan Stanley	USD	10,722,917	AUD	16,326,000	18-Mar-2031	USD SOFR 1 day	AUD BBR 3 months	(907)
Morgan Stanley	USD	9,573,065	NOK	106,979,000	18-Mar-2031	USD SOFR 1 day	NOK NIBOR 3 months	(2,533)
Morgan Stanley	USD	10,240,988	NZD	18,161,000	18-Mar-2031	USD SOFR 1 day	NZD BBR 3 months	(8,060)
USD								(29,761)

Inflation Rate Swap Contracts

An inflation rate swap allows the transfer of inflation risk. One party to the contract seeks to reduce their risk (by hedging), while the other increases exposure to the risk (by speculating). The party looking to hedge their inflation risk pays the floating rate linked to an inflation index while receiving fixed cash flows. By swapping floating for fixed, it reduces the hedging party's exposure to inflation risk and increases their certainty of future cash flows. Inflation rate swaps were valued at the last available price at NAV Calculation Day. The unrealised appreciation/(depreciation) is disclosed in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation)' on inflation rate swap contracts'.

On 30 September 2025, there were no Sub-Funds committed to swap agreements on inflation rates.

Interest Rate Swap Contracts

In order to hedge against interest rate fluctuations, the Company may enter into interest rate swaps, provided:

- The commitments deriving therefrom do not exceed the value of the relevant assets to be hedged; and
 - The total amount of such transactions does not exceed the level necessary to cover the risk of the fluctuation of the value of the assets concerned.
- Such contracts must be denominated in the currencies in which the assets of the Sub-Funds are denominated, or in currencies which are likely to fluctuate in a similar manner and must be either listed on an exchange or dealt in on a Regulated Market.

Interest rate swaps were valued at the last available price at NAV Calculation Day at their intrinsic value. The valuation method involves a current value of each interest rate and capital series converted into the currency of the Sub-Fund on the closing date. The result of these revaluations together with any interest receivable/payable in relation to interest rate swaps is shown in the Statement of Net Assets under 'Net unrealised appreciation/(depreciation) on interest rate swap contracts'.

On 30 September 2025, the following Sub-Funds were committed to swap agreements on interest rates:

Disclosure of Transaction Costs

The transaction costs are broker commission fees and taxes related to the purchase and sale of transferable securities. Bond Sub-Funds will generally show the figure of zero as the broker commission fees are included in the spread, which is excluded from the calculation pursuant to Annex I, Schedule B, Chapter V of Directive 2009/65/EC of the European Parliament. The transaction costs part of the acquisition cost/sale price of the related assets and the Custodian transaction costs are not included in this table. Costs for structured products are included in the market value.

The transaction costs for the year under review were as follows:

Sub-Funds	Currency	Transaction Costs
Schroder GAIA Asian Equity Long Short	USD	157,761
Schroder GAIA BlueTrend	USD	122,663
Schroder GAIA Cat Bond	USD	36,087
Schroder GAIA Contour Tech Equity	USD	829,567

Notes to the Financial Statements as at 30 September 2025 (cont)

Cross Sub-Fund investment

There were no cross Sub-Fund investments as at 30 September 2025.

Changes in the Sub-Funds

A list, specifying the total purchases and sales for each Sub-Fund, which took place during the year under review may be obtained free of charge upon request at the registered office of the Company.

Exchange Rate

The exchange rate used for the calculation of the combined total in EUR of the Financial Statements as at 30 September 2025 is:

1 Euro = 1.17405 US Dollar

Subsequent Events

1. Liquidation of Sub-Fund

The following Sub-Fund was liquidated after the year under review:

Sub-Fund	Sub-Fund Base Currency	Liquidation Date
Schroder GAIA Asian Equity Long Short	USD	29 October 2025

2. Planned Merger

On 10 February 2026, Schroder GAIA Oaktree Credit is planned to merge with Oaktree (Lux.) Funds - Oaktree Global Credit Select Fund. As a result of the Merger, there will be no change of legal entity acting as investment manager, which remains Oaktree Capital Management, L.P.

3. New share classes

The following share classes were made available after the year under review:

Sub-Fund and Share Class	Share Class Currency	Sub-Fund Base Currency	Launch Date
Schroder GAIA Cat Bond			
Class IF Acc SGD Hedged	SGD	USD	9 January 2026
Schroder GAIA Wellington Pagosa			
Class X Acc EUR Hedged	EUR	USD	19 November 2025

Appendix I – UCITS Disclosures (Unaudited) (cont)

UCITS remuneration disclosures for Schroder Investment Management Europe S.A. ('SIM Europe') for the year to 31 December 2024

These disclosures form part of the non-audited section of this annual report and accounts and should be read in conjunction with the Schroders plc Remuneration Report on pages 62 to 83 of the 2024 Annual Report & Accounts (available on the Group's website www.schroders.com/ir) which provides more information on the activities of our Remuneration Committee and our remuneration principles and policies.

The UCITS Material Risk Takers ('UCITS MRTs') of SIM Europe are individuals whose roles within the Schroders Group can materially affect the risk of SIM Europe or any UCITS fund that it manages. These roles are identified in line with the requirements of the UCITS Directive and guidance issued by the European Securities and Markets Authority.

The Remuneration Committee of Schroders plc has established a remuneration policy to ensure the requirements of the UCITS Directive are met for all UCITS MRTs. The Remuneration Committee and the Board of Schroders plc review remuneration strategy at least annually. The directors of SIM Europe are responsible for the adoption of the remuneration policy and periodically reviewing its implementation in relation to SIM Europe. During 2024 the Remuneration Policy was reviewed to ensure compliance with the UCITS/AIFMD remuneration requirements and no significant changes were made.

The implementation of the remuneration policy is, at least annually, subject to independent internal review for compliance with the policies and procedures for remuneration adopted by the Board of SIM Europe and the Remuneration Committee. The most recent review found no fundamental issues but resulted in minor recommendations relating to policy documentation.

Our ratio of operating compensation costs to net operating income guides the total spend on remuneration each year. This is recommended by the Remuneration Committee to the Board of Schroders plc. This approach aligns remuneration with Schroders financial performance. In determining the remuneration spend each year, the underlying strength and sustainability of the business is taken into account, along with reports on risk & compliance, legal and internal audit matters from the heads of those areas.

The remuneration data that follows reflects amounts paid in respect of performance during 2024.

- The total amount of remuneration paid by SIM Europe to its 332 staff was €55.67 million of which €42.25 million was fixed remuneration (e.g. salaries, benefits in kind) and €13.42 million was variable remuneration (e.g. annual bonus awards or deferred bonus awards). Employees of other Schroders Group entities who serve as Directors of SIM Europe receive no additional fees in respect of their role on the Board of SIM Europe.
- The following disclosures relate to UCITS MRTs of SIM Europe. Most of those UCITS MRTs were employed by other Schroders group companies, including as a result of delegation by SIM Europe of investment management or other responsibilities to other Schroders group entities or third parties. Many of those UCITS MRTs provide services to other Schroders group companies and other clients. In the interests of transparency, the aggregate remuneration figures that follow reflect the full remuneration for each SIM Europe UCITS MRT. The aggregate total remuneration paid to the 224 UCITS MRTs of SIM Europe in respect of the financial year ended 31 December 2024, and attributed to SIM Europe or the UCITS funds that it manages, is €169.80 million, of which €50.45 million was paid to senior management, €116.93 million was paid to MRTs deemed to be taking risk on behalf of SIM Europe or the UCITS funds that it manages and €2.42 million was paid to other UCITS MRTs including control function MRTs. Those total remuneration values include amounts paid by delegates where available.

For additional qualitative information on remuneration policies and practices see www.schroders.com/rem-disclosures.

Appendix II – Securities Financing Transactions (Unaudited)

The Sub-Funds engage in Securities Financing Transactions (SFT) (as defined in Article 3 of Regulation (EU) 2015/2365, securities financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions). In accordance with Article 13 of the Regulation, the Sub-Fund involvement relating to their exposure on total return swaps for the year ended 30 September 2025 is detailed below:

Schroder GAIA Egerton Equity

Global Data

Amount of assets engaged in total return swaps

Amount of Assets - Long Positions EUR	% of AUM
22,868,419	3.17%
Amount of Assets - Short Positions EUR	% of AUM
6,815,324	0.94%
Amount of Assets - Total EUR	% of AUM
29,683,743	4.11%

Concentration Data

Ten largest collateral issuers (across all SFT and total return swaps)

As at 30 September 2025, there are no collateral securities and commodities received in respect of total return swaps.

Top ten counterparties

Counterparty	Gross volume of outstanding transactions EUR
Morgan Stanley	16,342,792
Merrill Lynch	7,519,249
J.P. Morgan	4,494,143
Goldman Sachs	1,327,559
	29,683,743

The Sub-Fund deals with all of the above mentioned counterparties for its total return swaps.

Aggregate transaction data

Type and quality of collateral

As at 30 September 2025, no collateral was received in respect of total return swaps.

Maturity tenor of total return swaps

Maturity	Long Positions EUR	Short Positions EUR	Total EUR
less than 1 day	-	-	-
1 to 7 days	-	-	-
1 to 4 weeks	-	-	-
1 to 3 months	1,014,352	621,680	1,636,032
3 to 12 months	15,679,297	3,492,914	19,172,211
more than 1 year	6,174,770	2,700,730	8,875,500
open maturity	-	-	-
	22,868,419	6,815,324	29,683,743

Country in which counterparties for total return swaps are established

Counterparty	Country
Morgan Stanley	United States of America
Merrill Lynch	United States of America
J.P. Morgan	United Kingdom
Goldman Sachs	United States of America

Settlement and clearing

The Sub-Fund utilises bi-lateral settlement and clearing with its counterparty for total return swaps.

Reuse of collateral

The Sub-Fund does not reuse or reinvest collaterals received, if any, on total return swaps.

Safekeeping of collateral

Collateral received

As at 30 September 2025, no collateral was received in respect of total return swaps.

Collateral granted

The proportion of collateral held in segregated accounts or in pooled accounts, or in any other accounts in respect of total return swaps is as follows:

Account Type	Market Value EUR
Segregated	42,833,946
Pooled	-
Other	-
	42,833,946

OTC derivative transactions entered into by the Sub-Fund under an ISDA Master agreement are netted together for collateral purposes. Therefore, collateral disclosures provided above are in respect of all OTC derivative transactions and not just total return swaps.

Return and Cost

Return on Total Return Swaps disclosed below are included as part of 'Net income on swaps', 'Net expense on swaps', 'Net realised gains/(losses) on total return swap contracts' and 'Net change in unrealised appreciation/(depreciation) on total return swap contracts' in the Statement of Operations and Statement of Changes in Net Assets. All returns on Total Return Swaps are attributable to the Sub-Fund and are not subject to return sharing agreements.

	Total Return Swaps Absolute – in Sub-Fund currency
To Sub-Fund	67,528,339

Cost

The costs attributed to total return swaps are included in the spread.

Appendix III – Sustainable Finance Disclosure (Unaudited)

Reference Period: 1 October 2024 - 30 September 2025

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product Name : Schroder GAIA Cat Bond
Legal Entity Identifier : 549300MYKDUYVX3W6F39

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

X

No

☐

It made **sustainable investments with an environmental objective**: __%

☐

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐

It made **sustainable investments with a social objective**: __%

☐

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

☐

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐

with a social objective

X

It promoted E/S characteristics, but **did not make any sustainable investments**

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Fund were met.

The Fund invested:

- at least 80% of its assets in investments linked to natural catastrophe and/or life risks with an aim of reducing the negative consequences of such events, contributing to the rebuilding of economies and societies post event and hence increasing their resilience going forward;
- at least 50% of its assets in investments linked to meteorological risks with an aim of reducing the negative consequences of such events, contributing to the rebuilding of economies and societies post event and hence increasing their resilience going forward, and potentially easing the negative consequences of climate change;
- at least 5% of its assets in investments that are designed to address the unavailability of affordable insurance cover against natural catastrophes.

The Fund maintained a positive absolute sustainability score, based on Schroders' proprietary tool.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales or GDP the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The reference period for this Fund is 1 October 2024 to 30 September 2025.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

• How did the sustainability indicators perform?

The Investment Manager monitored compliance with the characteristic to invest at least: 80% of its assets in investments linked to natural catastrophe and/or life risks; 50% of its assets in investments linked to meteorological risks; and 5% of its assets in investments that are designed to address the unavailability of affordable insurance cover against natural catastrophes by using a third-party operating system for investment professionals with oversight provided by an internal portfolio compliance team.

The positive absolute sustainability score for the reference period was 0.8%. This means that the Fund's weighted average score over a rolling six month period up to the end of the reference period was higher than zero, based on month-end data. The sustainability score is calculated as described above.

During the reference period, the top 5 indicators in Schroders' proprietary tool that contributed positively to the sustainability score of the Fund were:

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

- Education: the estimated societal benefits of a country's education spend per school age capita;
- Financial Inclusion: the estimated societal benefits from the provision of financial services on local populations. Assigned in proportion to company market share of global revenue;
- High Salaries: the estimated societal benefit of paying staff above local living wages (for regions in which they operate). Assigned in proportion to the surplus companies are paying employees compared to the average living wage;
- Medicine: the estimated societal benefits arising from the additional social value the sale of such products and services exhibits of the wider economy. Assigned in proportion to the company's involvement in the healthcare value chain and proportion of company market share to global sub-sector revenue; and
- Socio-Political Stability: the estimated societal benefit a politically and socially stable country can provide in supporting a favourable business environment and attracting investment, thus contributing to long-run economic growth.

The Fund also applied certain exclusions, with which the Investment Manager monitored compliance on an ongoing basis via its portfolio compliance framework.

• *...and compared to previous periods?*

Sustainability score

This table details the Fund's sustainability score, year on year

Period	Fund (%)
Oct 2024 - Sep 2025	0.8
Oct 2023 - Sep 2024	0.7
Oct 2022 - Sep 2023	0.9
Oct 2021 - Sep 2022	0.8

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

• *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

As the Fund did not commit to making sustainable investments, this question is not applicable for this Fund.

• *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

This question is not applicable for this Fund.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

How were the indicators for adverse impacts on sustainability factors taken into account?

This question is not applicable for this Fund.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This question is not applicable for this Fund.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As stated in the pre-contractual disclosure for the Fund, currently, the Investment Manager is not able to consider the principal adverse impacts on sustainability factors as these metrics only apply to investments in companies, sovereign debt and real estate.

Due to the nature of the Fund’s assets, being insurance-linked securities and financial derivative instruments that are exposed to catastrophe risks, the Investment Manager could only consider adverse impacts applicable to this asset class. The Investment Manager has excluded certain transaction sponsors and certain risk classes from inclusion in its portfolios that the Investment Manager believes have the potential to cause significant adverse impacts on society.

The Fund has also excluded ILS transactions that are sponsored by the following companies on a standalone basis:

- Environmental: Companies that are active in fossil fuels extraction and production (including but not limited to oil drilling and coal mines) or power generation from oil and gas.
- Social: Companies from the following sectors: Alcohol, Tobacco, Gambling, Adult Entertainment, Conventional Weapons, Civilian Firearms, and Nuclear Weapons. Further, the Fund has excluded certain risk classes from inclusion into its portfolio: lottery, mortgage insurance, life settlements and terror on

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

a stand-alone basis.

What were the top investments of this financial product?

During the reference period the top 15 investments were:

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **1 Oct 2024 to 30 Sep 2025**

The list above represents the average of the Fund's holdings at each quarter-end during the reference period.

The largest investments and % of assets referred to above are derived from the Schroders Investment Book of Record (IBoR) data source. The largest investments and % of assets detailed elsewhere in the Audited Annual Report are derived from the Accounting Book of Record (ABoR) maintained by the administrator. As a result of these differing data sources, there may be differences in the largest investments and % of assets due to the differing calculation methodologies of these alternative data sources.

Due to the structure of these assets the 'Country' shown in the table above represents the domicile of the investment vehicle. The country risk exposures of the underlying investments will generally differ from the country of domicile. The 'Sector' shown represents the fact these are special purpose vehicles created for the purpose of risk mitigation.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

• What was the asset allocation?

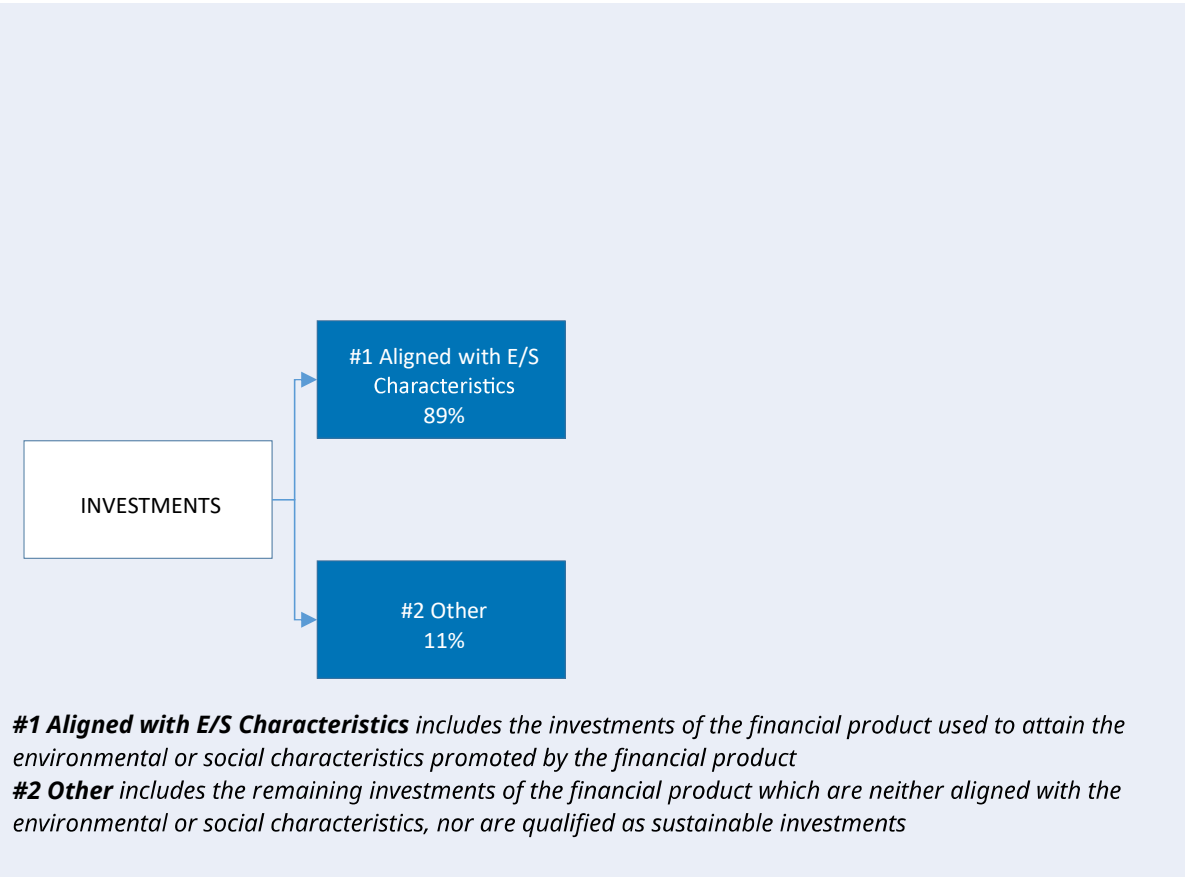

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

The Fund’s investments that were used to meet its environmental or social characteristics are summarised below, all figures represent the average of the Fund’s holdings at each quarter end during the reference period.

#1 Aligned with E/S characteristics includes the Fund’s assets that were used to attain the environmental or social characteristics, which is equal to 89%. This percentage represents the assets in investments linked to natural catastrophe and/or life risks, investments linked to meteorological risks and investments that are designed to address the unavailability of affordable insurance cover against natural catastrophes.

#2 Other includes investments that are treated as neutral for sustainability purposes, which were cash and derivatives used with the aim of reducing risk (hedging) or managing the Fund more efficiently. #2 also includes investments that are not aligned with the environmental or social characteristics of the Fund.

• **In which economic sectors were the investments made?**

During the reference period investments were made in the following economic sectors:

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

Sector	Sub-Sector	% Assets
Financial	Insurance	88.04
Cash	Cash	5.62
Treasuries	Treasuries	4.97
Supranational	Supranational	1.39
Derivatives	FX Derivatives	-0.03

The list above represents the average of the Fund’s holdings at each quarter-end during the reference period.

The largest investments and % of assets referred to above are derived from the Schroders Investment Book of Record (IBoR) data source. The largest investments and % of assets detailed elsewhere in the Audited Annual Report are derived from the Accounting Book of Record (ABoR) maintained by the administrator. As a result of these differing data sources, there may be differences in the largest investments and % of assets due to the differing calculation methodologies of these alternative data sources.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

There was no extent to which the Fund’s investments (including transitional and enabling activities) with an environmental objective were aligned with the EU Taxonomy. Taxonomy alignment of this Fund’s investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund’s portfolio.

• Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Appendix III – Sustainable Finance Disclosure

(Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

²As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

• What was the share of investments made in transitional and enabling activities?

As per the above, the share of investments by the Fund in transitional and enabling activities has been deemed to constitute 0% of the Fund’s portfolio.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

• *How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?*

This question is not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This question is not applicable for this Fund.

What was the share of socially sustainable investments?

This question is not applicable for this Fund.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

#2 Other includes investments that are treated as neutral for sustainability purposes, which were cash and derivatives used with the aim of reducing risk (hedging) or managing the Fund more efficiently. #2 also includes investments that are not aligned with the environmental or social characteristics of the Fund.

Minimum safeguards were applied where relevant to investments and derivatives by restricting (as appropriate) investments in counterparties where there were ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties were reviewed by Schroders' Credit Risk team and approval of a new counterparty was based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

system and its regulatory framework. Ongoing monitoring was performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges.

Schroders' Credit Risk team monitored the counterparties and during the reference period, to the extent counterparties were removed from the approved list for all funds in line with our policy and compliance requirements, such counterparties were ineligible for use by the Fund in respect of any relevant investments from the date they were removed.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The actions taken during the reference period to meet the environmental and social characteristics promoted by the Fund were the following:

- The Investment Manager applied sustainability criteria when selecting investments for the Fund;
- A good governance assessment was applied throughout the period;
- The Investment Manager considered the sustainability score of the Fund and of individual investments when selecting the assets held by the Fund;

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

• *How does the reference benchmark differ from a broad market index?*

This question is not applicable for this Fund.

• *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

This question is not applicable for this Fund.

• *How did this financial product perform compared with the reference benchmark?*

This question is not applicable for this Fund.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

- *How did this financial product perform compared with the broad market index?*

This question is not applicable for this Fund.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product Name : Schroder GAIA Helix
Legal Entity Identifier : 549300HTRQHGX6XKWC51

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Did this financial product have a sustainable investment objective?

Yes

No

<input type="checkbox"/> It made sustainable investments with an environmental objective : __%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 65% of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	<input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : __%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

The percentage of sustainable investments shown (which are all long positions, as short positions are not deemed to be sustainable investments) represents the sustainable investments as a proportion of the long exposure of the Fund during the reference period. This is in line with the pre-contractual disclosure for the Fund, where the Fund committed to invest at least 35% of its long exposure in sustainable investments.

For additional context, the percentage of sustainable investments as a proportion of the gross exposure of the Fund during the reference period was 33%. The gross exposure includes both long and short positions and this figure is provided for consistency with the basis of the other calculations in the asset allocation section below.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Fund were met.

The Fund maintained a positive absolute sustainability score, based on Schroders' proprietary tool.

The sustainability score is measured by Schroders' proprietary tool that provides an aggregate estimate of the social and environmental costs and benefits that an issuer may create. It does this by scoring the issuer against a list of indicators – scores may be positive (for example, when an issuer pays more than average living wages) or negative (for example, when an issuer emits carbon). It does this using third party data as well as Schroders' own estimates and assumptions and the outcome may differ from other sustainability tools and measures.

The result is expressed as an aggregate score of the sustainability indicators for each issuer, specifically a notional percentage (positive or negative) of sales or GDP of the relevant underlying issuer. For example, a score of +2% would mean that for every \$100 of sales or GDP the issuer generates, it would provide a net positive contribution to society and/or the environment of \$2. The sustainability score of the Fund is derived from the scores of all eligible issuers in the Fund's portfolio measured by Schroders' proprietary tool.

The Fund's long and short positions contribute differently to the aggregate score. Long positions with positive scores and short positions with negative scores both contribute positively towards the aggregate score, while long positions with negative scores and short positions with positive scores both detract from the aggregate score.

The Fund used derivatives extensively to implement its investment strategy and to meet the environmental and/or social characteristics promoted by the Fund. Long and short derivative positions contributed differently to the Fund's overall sustainability score as described. Equity and index derivatives (excluding options) are scored in the same way as physical holdings, on a look-through basis, and also contributed to the Fund's overall sustainability score.

The Fund also invested at least 35% of its long exposure in sustainable investments during the reference period. The long exposure excludes cash and cash equivalents.

The reference period for this Fund is 1 October 2024 to 30 September 2025.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

• *How did the sustainability indicators perform?*

The positive absolute sustainability score for the reference period was 7.4%. This means that the Fund's weighted average score over a rolling six month period up to the end of the reference period was higher than zero, based on month-end data.

The sustainability score is calculated as described above.

During the reference period, the top 5 indicators in Schroders' proprietary tool that contributed positively to the sustainability score of the Fund were:

- CO2 Emissions Scope 1; Environmental costs of Scope 1 greenhouse gas (GHG) emissions on climate change. Scope 1 emissions represent the direct emissions within a company's organisational boundary.
- Contraception; The estimated societal benefits attained from the production and supply of

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

contraceptives. Assigned in proportion to company market share of global revenue;

- High Salaries; the estimated societal benefit of paying staff above local living wages (for regions in which they operate). Assigned in proportion to the surplus companies are paying employees compared to the average living wage;

- Tobacco; Societal cost of smoking (assigned to tobacco producers). Assigned in proportion to company market share of global revenue; and

- Water Usage; the environmental and societal cost of companies' and countries' freshwater withdrawal. Assigned based on reported water usage.

Any societal or environmental costs listed above (such as Tobacco) were scored negatively, yet contributed positively to the sustainability score of the Fund. This is because they represent short positions, and short positions with negative scores contribute positively towards the aggregate sustainability score of the Fund.

The Fund committed to invest at least 35% of its long exposure in sustainable investments by reference to the sustainability score of each asset in Schroders' proprietary tool and in line with this commitment the Fund invested 65% of its long exposure in sustainable investments (which are all long positions, as short positions are not deemed to be sustainable investments) as at the end of the reference period, based on quarter-end data.

For additional context, during the reference period and based on quarter-end data, the Investment Manager invested 33% of the Fund's gross exposure in sustainable investments. This represents the percentage of sustainable investments as a proportion of the gross exposure of the Fund. The gross exposure includes both long and short positions and this figure is provided for consistency with the basis of the calculations in the asset allocation section below.

The Fund also applied certain exclusions, with which the Investment Manager monitored compliance on an ongoing basis via its portfolio compliance framework.

• ...and compared to previous periods?

Sustainable investments

This table details the percentage of assets invested in sustainable investments, year on year.

Period	Fund % (Gross)	Fund % (Long)
Oct 2024 - Sep 2025	33	65
Oct 2023 - Sep 2024	31	63
Oct 2022 - Sep 2023	28	55
Oct 2021 - Sep 2022	26	52

Sustainability score

This table details the Fund's sustainability score, year on year

Period	Fund (%)
Oct 2024 - Sep 2025	7.4
Oct 2023 - Sep 2024	7.1
Oct 2022 - Sep 2023	9.8
Oct 2021 - Sep 2022	8.8

For the first period the percentage of sustainable investments was calculated as at the end of the reference period.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

From October 2022 the percentage is calculated as an average based on quarter-end data.

• What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

In respect of the proportion of the Fund's long portfolio that was invested in sustainable investments, each sustainable investment demonstrated a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool.

The objectives of the sustainable investments that the Fund made included, but were not limited to:

- Connectivity: the estimated societal benefits from companies' that enable or support the connection of communities through telecommunication services;
- Contraception: the estimated societal benefits attained from the production and supply of contraceptives. Assigned in proportion to company market share of global revenue;
- High Salaries: the estimated societal benefit of paying staff above local living wages (for regions in which they operate). Assigned in proportion to the surplus companies are paying employees compared to the average living wage;
- Innovation; the estimated societal benefits arising from the investment in Research and Development (R&D). Assigned based on the unitary benefit of R&D spend, or estimated based on company patent applications; and
- Medicine: the estimated societal benefits arising from the additional social value the sale of such products and services exhibits of the wider economy. Assigned in proportion to the company's involvement in the healthcare value chain and proportion of company market share to global sub-sector revenue.

The above examples of the objectives of the sustainable investments that the Fund made during the reference period are based on the most significant objectives at each quarter-end. Other objectives may have applied during the reference period.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

• How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Investment Manager's approach to not causing significant harm to any environmental or social sustainable investment objective included the following:

- Firm-wide exclusions applied to Schroders funds. These related to international conventions on cluster munitions, anti-personnel mines, and chemical and biological weapons. Further information and a list of excluded controversial weapons companies is available at <https://www.schroders.com/en/sustainability/active-ownership/group-exclusions/>.
- In line with firmwide exclusions and their thresholds the fund excluded companies, from its long exposure, that generate a significant proportion of their revenue from thermal coal mining.
- In addition, the Fund excluded, from its long exposure, companies that derive revenues above certain thresholds from activities related to tobacco and thermal coal.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

- The Fund excluded, from its long exposure, companies that are assessed by Schroders to have breached one or more 'global norms' thereby causing significant environmental or social harm; these companies comprise Schroders' 'global norms' breach list. Schroders' determination of whether a company has been involved in such a breach considers relevant principles such as those contained in the UN Global Compact (UNGC) principles, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. The 'global norms' breach list may be informed by assessments performed by third party providers and by proprietary research, where relevant to a particular situation.

The Fund may have also applied certain other exclusions in addition to those summarised above. Further information on all of The Fund's investment exclusions is to be found under "Sustainability-Related Disclosure" on The Fund's webpage

<https://www.schroders.com/en-lu/lu/individual/fund-centre>

How were the indicators for adverse impacts on sustainability factors taken into account?

When seeking to identify significant harm, Schroders' approach to taking into account the Principal Adverse Impacts (PAI) indicators involved taking both a quantitative and a qualitative approach. Investee companies deemed not to satisfy the quantitative thresholds would generally have been excluded, unless on a case-by-case basis the data was deemed not representative of a company's performance in the relevant area. Where it was not considered appropriate or feasible to set quantitative thresholds, the Investment Manager engaged, where relevant, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy.

This framework is subject to ongoing review, particularly as the availability and quality of the data evolves. Our approach included:

1. Quantitative: this included indicators where specific thresholds have been established:

- Via the application of exclusions. This approach is relevant to
PAI 4 (Exposure to companies active in the fossil fuel sector),
PAI 5 (Share of non-renewable energy consumption and production) and
PAI 14 (Exposure to controversial weapons).

Further, the following PAIs were assessed as part of Schroders' 'global norms' breach list exclusion (which seeks to exclude companies where significant harm is occurring) which apply to the Fund's long exposure:

PAI 7 (Activities negatively affecting biodiversity-sensitive areas),
PAI 8 (Emissions to water),
PAI 9 (Hazardous waste and radioactive waste ratio),
PAI 10 (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development Guidelines for Multinational Enterprises),
PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and
PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents).

- Via the application of an alert system flag if the relevant indicator(s) exceeded a threshold. These quantitative thresholds to assess significant harm are established centrally by our Sustainable Investment team and monitored systematically. This approach applies to indicators where we have segmented the population into harm groups to establish a threshold, such as carbon related PAI metrics,
PAI 1 (GHG emissions),

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

PAI 2 (Carbon footprint) and

Voluntary PAI 4 in Table 2 (Investing in companies without carbon emission reduction initiatives).

PAI 3 (GHG intensity of investee companies) operates in a similar way but the threshold is based on a revenue metric.

PAI 6 (Energy consumption intensity per high impact climate sector) via the establishment of a threshold based on the above mentioned carbon measures. A similar approach has been taken for PAI 15 (GHG intensity).

PAI 16 (Investee countries subject to social violations) also operates in the same way but based on data availability regarding social violations.

Through this process the relevant issuer(s) that were deemed not to satisfy the quantitative thresholds were flagged to the Investment Manager for consideration, whose response may have involved selling the holdings(s) or maintaining the position if on a case-by-case basis the data was deemed not representative of a company's performance in the relevant area. Investee companies deemed to cause significant harm were excluded from the long exposure of the Fund.

2. Qualitative: This included PAI indicators where Schroders' believed that the data available did not enable us to make a quantitative determination regarding whether significant harm was done so as to warrant excluding an investment. In such cases, the Investment Manager engaged where possible with the company or companies held, in accordance with the priorities documented in Schroders' Engagement Blueprint and/or voting policy. This approach applies to indicators such as PAI 12 (Unadjusted gender pay gap) and PAI 13 (Board gender diversity), where we engaged and used our voting rights where we considered appropriate. Both board gender diversity and disclosure of gender pay gap information are captured in our Engagement Blueprint.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The portion of the portfolio in sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights.

Companies on Schroders' 'global norms' breach list were not categorised as sustainable investments. Schroders' determination of whether a company should be included on such list considered the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, among other relevant principles. The 'global norms' breach list was informed by third party providers and proprietary research, where relevant.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

How did this financial product consider principal adverse impacts on sustainability factors?

Some indicators were considered via the application of exclusions, some were considered via the investment process and some via engagement. Further details on how these have been considered during the reference period are detailed below.

The Fund allocated its assets across multiple underlying strategies. Some PAIs were considered at the Fund level, whilst other PAIs were considered at the level of the underlying strategies by the relevant investment manager where applicable. Further details on how these have been considered during the reference period are detailed below.

PAIs were considered as part of pre-investment through the application of exclusions. These included:

- Controversial weapons:

PAI 14 (Exposure to controversial weapons, such as anti-personnel mines, cluster munitions, chemical weapons and biological weapons) – applied to long and short exposures.

- Schroders' 'global norms' breach list which covers:

PAI 7 (Activities negatively affecting biodiversity-sensitive areas),

PAI 8 (Emissions to water),

PAI 9 (Hazardous waste ratio),

PAI 10 (Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises),

PAI 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises) and PAI 14 in Table 3 (Number of identified cases of severe human rights issues and incidents) – applied to long exposures.

- Companies that derived revenues above certain thresholds from activities related to thermal coal, that were deemed by the Investment Manager to contribute significantly to climate change were excluded from the investible universe:

PAIs 1, 2, 3, 4 and 5 (Greenhouse gas emissions) – applied to long exposures.

Compliance with these thresholds was monitored via the Investment Manager's portfolio compliance framework.

Other PAIs were considered via active ownership, which was performed indirectly via the underlying investment managers. Where applicable, based on the underlying strategies and the relevant investment manager's own investment process, PAIs were also considered post-investment through engagement in line with the approach and expectations set out in the Schroders Engagement Blueprint, which outlines our approach to active ownership. Some examples of engagements during the reference period are:

We engaged with an issuer in the Machinery, Tools, Heavy Vehicles, Trains & Ships industry based in China on the subject of Climate alignment - decarbonising and minimising emissions (PAIs 1, 2, 3 and PAI 4 in table 2). We also held an engagement on the subject of Executive remuneration (PAIs 10, 12 and 13) with an issuer in the Banking Services industry based in Hungary. Additionally, we engaged with an issuer based in China in the Machinery, Tools, Heavy Vehicles, Trains & Ships industry on the subject of Workers (PAI 10).

A summary of the Fund's full engagement activity during the reference period, including the relevant engagement theme, is shown below:

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

Engagement Theme	# Issuers
Climate Change	28
Corporate Governance	14
Human Rights	12
Diversity and Inclusion	5
Human Capital Management	4
Natural Capital and Biodiversity	3

The engagements shown may include engagements assigned to short positions, cash, derivatives, collective investment schemes, debt and repos held by the Fund. Our approach is subject to ongoing review, particularly as the availability, and quality, of PAI data evolves.

What were the top investments of this financial product?

During the reference period the top 15 investments, based on net exposure (as a % of NAV), were:

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **1 Oct 2024 to 30 Sep 2025**

Largest Investments	Sector	% Assets	Country
HDFC BANK ADR REPRESENTING THREE L	Financials	1.71	India

SHENZHEN INOVANCE TECHNOLOGY LTD A	Industrials	0.94	China
UNILEVER PLC	Consumer Staples	0.91	United Kingdom

The list above is based on the average of the Fund's net exposure as a % of NAV at each quarter end during the reference period. The % of NAV aligned to economic sectors referred to above are derived from the Schroders Investment Book of Record (IBoR) data source. The % of NAV aligned to economic sectors detailed elsewhere in the Audited Annual Report are derived from the Accounting Book of Record (ABoR) maintained by the administrator. As a result of these differing data sources, there may be differences in the % of NAV aligned to economic sectors due to the differing calculation methodologies of these alternative data sources.

Exposures have been provided on a look through basis for index futures, index options, TRS positions and CFD baskets where possible and netted at the issuer level. There may be instances where a proxy has been used.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

Asset allocation
describes the share
of investments in
specific assets.

What was the proportion of sustainability-related investments?

• What was the asset allocation?

The Fund's investments that were used to meet its environmental or social characteristics are summarised below, all figures represent the average of the Fund's holdings at each quarter end during the reference period.

#1 Aligned with E/S characteristics includes the Fund's assets that were used to attain the environmental or social characteristics, which is equal to 98% of gross exposure. The Fund maintained a positive absolute sustainability score, and so the Fund's investments (both long and short) that were scored by Schroders' proprietary sustainability tool are included within #1 on the basis that they contributed to the Fund's sustainability score (whether such individual investment had a positive or a negative score). Long positions with positive scores and short positions with negative scores both contributed positively towards the aggregate score, while long positions with negative scores and short positions with positive scores both detracted from the aggregate score. Also included within #1 is the proportion of gross exposure that was invested in sustainable investments, as indicated in #1A.

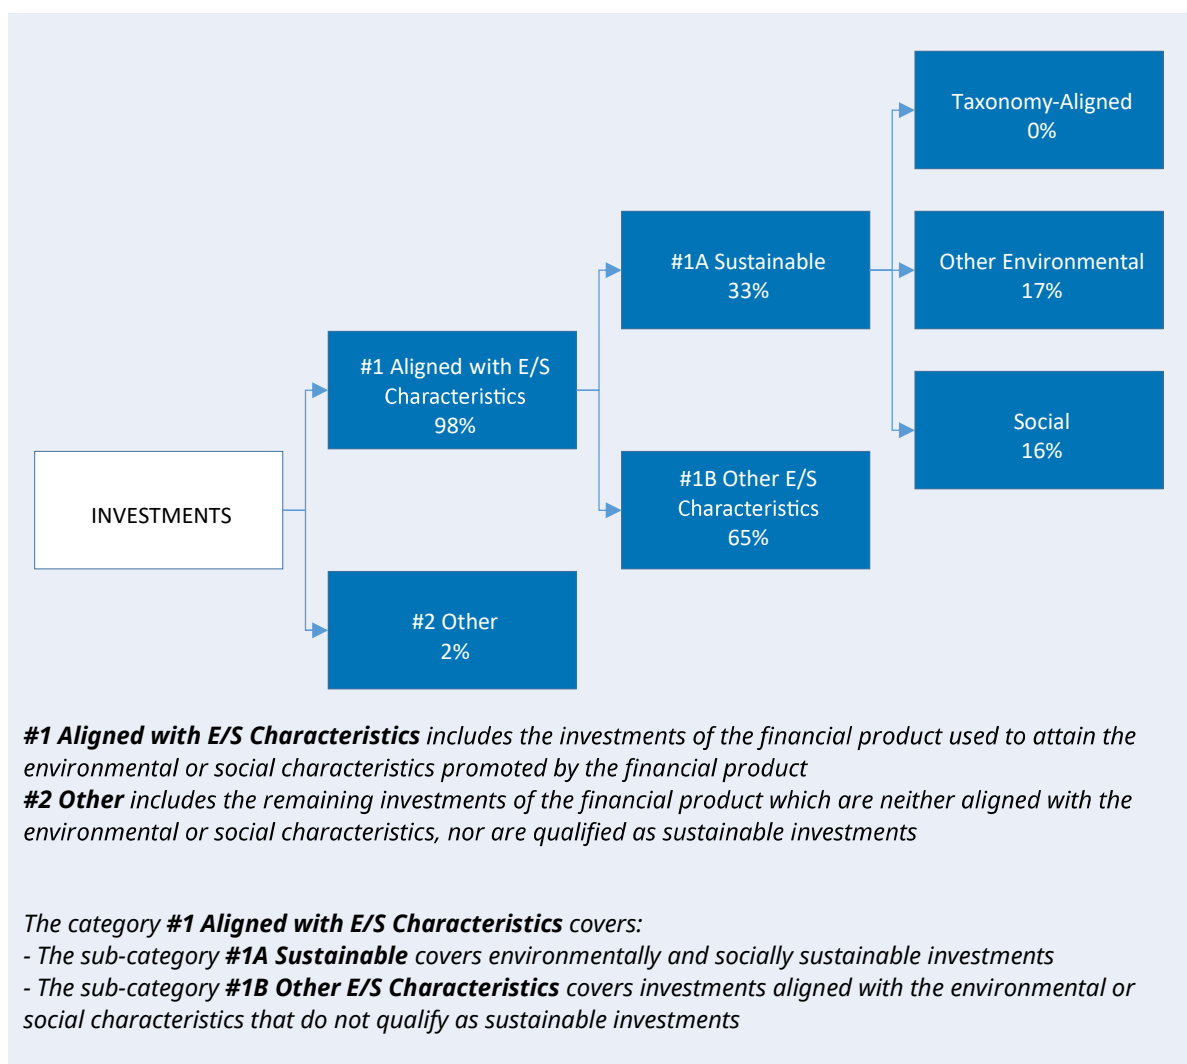

During the reference period, the Fund invested 33% of its gross exposure in sustainable investments. The gross exposure includes both long and short positions but the percentage only includes long positions as short positions are not deemed to be sustainable investments. Within this, 17% was invested in sustainable investments with an environmental objective and 16% was invested in sustainable investments with a social objective. However, the Fund committed to invest at least 35% of its long positions in sustainable investments. During the reference period the Fund invested 65% of its long exposure in sustainable investments. Within this, 33% was invested in sustainable investments with an environmental objective and 31% was invested in sustainable investments with a social objective. The percentage of sustainable investments with an environmental objective and the percentage of sustainable investments with a social objective may not sum to the percentage of sustainable investments, due to rounding. In respect of the proportion of the Fund's portfolio that was invested in sustainable investments, each sustainable investment demonstrated a net positive effect across a range of environmental or social objectives, as scored by Schroders' proprietary tool. With the exception of any green or social bonds, which will be classified as having an environmental and social objective respectively, a sustainable investment is classified as having an environmental or social objective depending on whether the relevant issuer has a higher score in Schroders' proprietary tool relative to its applicable peer group for its environmental indicators or its social indicators. In each case, indicators are comprised of both "costs" and "benefits".

#2 Other includes investments that are not scored by Schroders' proprietary sustainability tools and so do not contribute towards the Fund's sustainability score.

Cash and cash equivalents are excluded from #2 Other due to the long / short nature of the Fund's investment strategy.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

The percentages shown above are calculated as a proportion of gross exposure for consistency purposes. However, the Fund committed to invest at least 35% of its long exposure in sustainable investments and during the reference period the Fund invested 65% of its long positions in sustainable investments.

Exposures have been provided on a look through basis for index futures, index options, TRS positions and CFD baskets where possible and netted at the issuer level. There may be instances where a proxy has been used.

This netting was applied before determining whether an exposure was long or short, and before calculating the gross exposure.

• In which economic sectors were the investments made?

During the reference period investments were made in the following economic sectors, based on gross and net exposure (as a % of NAV):

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

Sector	Sub-Sector	% Assets (Net)	% Assets (Gross)
Communication Services	Media & Entertainment	6.04	16.08
Communication Services	Telecommunication Services	-2.42	7.77
Consumer Discretionary	Automobiles & Components	-1.27	5.46
Consumer Discretionary	Consumer Discretionary Distribution & Retail	-5.21	11.46

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

The list above is based on the average of the Fund's gross and net exposure as a % of NAV at each quarter end during the reference period. The % of NAV aligned to economic sectors referred to above are derived from the Schroders Investment Book of Record (IBoR) data source. The % of NAV aligned to economic sectors detailed elsewhere in the Audited Annual Report are derived from the Accounting Book of Record (ABoR) maintained by the administrator. As a result of these differing data sources, there may be differences in the % of NAV aligned to economic sectors due to the differing calculation methodologies of these alternative data sources.

Exposures have been provided on a look through basis for index futures, index options, TRS positions and CFD baskets where possible and netted at the issuer level. There may be instances where a proxy has been used.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

There was no extent to which the Fund's investments (including transitional and enabling activities) with an environmental objective were aligned with the EU Taxonomy. Taxonomy alignment of this Fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Fund's portfolio.

• Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas☐ In nuclear energy

☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

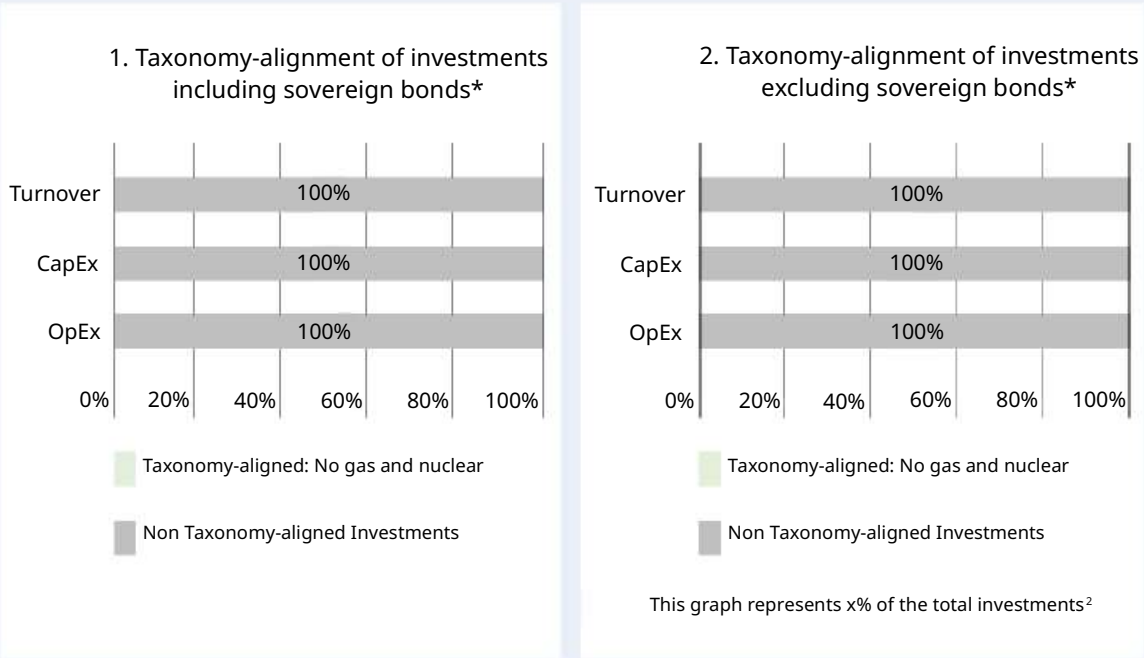

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.*

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

²As there is no Taxonomy-alignment, there is no impact on the graph if sovereign bonds are excluded (i.e. the percentage of Taxonomy-aligned investments remains 0%) and the Management Company therefore believes that there is no need to mention this information.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

• **What was the share of investments made in transitional and enabling activities?**

As per the above, the share of investments by the Fund in transitional and enabling activities has been deemed to constitute 0% of the Fund's portfolio.

• **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

This question is not applicable.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reference period based on quarter-end data, the Fund invested 17% of its gross exposure in sustainable investments with an environmental objective that were not aligned with the EU Taxonomy. This percentage is provided for consistency with the basis of the calculations in the asset allocation section above. The Fund invested 33% of its long exposure in sustainable investments with an environmental objective that were not aligned with the Taxonomy.

What was the share of socially sustainable investments?

During the reference period based on quarter-end data, the Fund invested 16% of its gross exposure in sustainable investments with a social objective. This percentage is provided for consistency with the basis of the calculations in the asset allocation section above. The Fund invested 31% of its long exposure in sustainable investments with a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

#2 Other includes investments that are not scored by Schroders' proprietary sustainability tools and so do not contribute towards the Fund's sustainability score.

Cash and cash equivalents are excluded from #2 Other due to the long / short nature of the Fund's investment strategy.

Minimum safeguards were applied where relevant to investments and derivatives by restricting (as appropriate) investments in counterparties where there were ownership links or exposure to higher risk countries (for the purpose of money laundering, terrorist financing, bribery, corruption, tax evasion and sanctions risks). A firm-wide risk assessment considers the risk rating of each jurisdiction; which includes reference to a number of public statements, indices and world governance indicators issued by the UN, the European Union, the UK Government, the Financial Action Task Force and several Non-Government Organisations (NGOs), such as Transparency International and the Basel Committee.

In addition, new counterparties were reviewed by Schroders' Credit Risk team and approval of a new counterparty was based on a holistic review of the various sources of information available, including, but not limited to, quality of management, ownership structure, location, regulatory and social environment to which each counterparty is subject, and the degree of development of the local banking system and its regulatory framework. Ongoing monitoring was performed through a Schroders' proprietary tool, which supports the analysis of a counterparty's management of environmental, social and governance trends and challenges.

Schroders' Credit Risk team monitored the counterparties and during the reference period, to the extent counterparties were removed from the approved list for all funds in line with our policy and compliance requirements, such counterparties were ineligible for use by the Fund in respect of any relevant investments from the date they were removed.

Appendix III – Sustainable Finance Disclosure (Unaudited) (cont)

Reference Period: 1 October 2024 - 30 September 2025

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The actions taken during the reference period to meet the environmental and social characteristics promoted by the Fund were the following:

- The Investment Manager applied sustainability criteria when selecting investments for the Fund;
- A good governance assessment was applied throughout the period;
- The Investment Manager considered the sustainability score of the Fund and of individual investments when selecting the assets held by the Fund; and
- The Investment Manager undertook engagements covering one or more of the six priority themes set out in our Engagement Blueprint (Link <https://mybrand.schroders.com/m/3222ea4ed44a1f2c/original/schroders-engagement-blueprint.pdf>). A summary of the Fund's engagement activity, including the number of issuers engaged with and the related theme, is shown above in the question 'How did this financial product consider principal adverse impacts on sustainability factors?'. Through our engagement activities, we build relationships and have a two-way dialogue with our investee companies.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

• *How does the reference benchmark differ from a broad market index?*

This question is not applicable for this Fund.

• *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

This question is not applicable for this Fund.

• *How did this financial product perform compared with the reference benchmark?*

This question is not applicable for this Fund.

• *How did this financial product perform compared with the broad market index?*

This question is not applicable for this Fund.
