Risk Considerations

- Investments in debt securities are primarily subject to interest rate, credit and default risks and, potentially, to currency exchange rate risk.
- This fund may use financial derivative instruments as a part of the investment process. This may increase the fund's price volatility by amplifying market events.
- The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested.

Important Information

Investors' attention is drawn to the fact that:

- a Money Market Fund is not a guaranteed investment;
- an investment in a Money Market Fund is different from an investment in deposits as the principal invested in a Money Market Fund is capable of fluctuation;
- the Money Market Fund does not rely on external support for guaranteeing the liquidity of the fund or stabilising the Net Asset Value per unit; and
- the risk of loss of the principal is borne by investors.

The Schroder Offshore Cash Fund is an open-ended unit trust authorised by the Guernsey Financial Services Commission as a Class B scheme. To the extent that this document is being issued in the United Kingdom it is issued by Schroder Unit Trusts Limited and is directed only at persons who are professional investors for the purposes of the Alternative Investment Fund Managers Regulations. The opportunity to invest in the Fund is only available to such persons in the United Kingdom and this document must not be relied or acted upon by any other persons in the United Kingdom. The Fund has not been authorised, or otherwise recognised or approved, by the Financial Conduct Authority. All or most of the protection afforded by the UK regulatory system, including the right to cancel any agreement to purchase units, will not apply to an investment in the Fund and compensation will not be available under the UK Financial Services Compensation Scheme.

Any references to securities, sectors, regions and/or countries are for illustrative purposes only.

The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of any overseas investments to rise or fall.

Past Performance is not a guide to future performance and may not be repeated.

The source of data for this report is Schroders Internal Investment records (which is live and not audited) with the exception of the NAV and the yield, which is from Morningstar and is calculated monthly as at month end.

For the net yield, the yield calculation is not applicable to accumulation share classes, accordingly a dash will be shown in such cases.

There could be differences between the data presented in this report and other reports due to the data source used and the periodicity of the reporting.
